My Professional Journey

2026 — Present

Case Manager
Teleperformance — Stellantis FCA
Automotive Case Management

I manage customer cases involving vehicle recalls, service concerns, complaints, and requests for additional assistance or changes. My role is to understand and document each customer's concern, gather the necessary information, and coordinate with the appropriate internal departments so the case can be properly reviewed, progressed, and resolved.

Key Responsibilities

- Manage and document customer cases involving recalls, complaints, service concerns, and additional requests.
- Review customer concerns and gather relevant vehicle and case information.
- Accurately document case details, actions taken, and requested resolutions.
- Relay and escalate cases to the appropriate departments for further investigation or action.
- Communicate case updates and next steps while maintaining professional and customer-focused service.

2024 — 2026

Customer Expert
Coforge BPS — Fifth Third Bank
Financial Account Support

Provided phone-based customer support for everyday banking needs, assisting customers with account services, transactions, card requests, disputes, and online banking concerns. I handled a wide range of customer inquiries while ensuring information was accurately processed, documented, and handled according to banking procedures and security requirements.

Key Responsibilities

- Assist customers with everyday banking needs, including account inquiries, transactions, and account updates.

- Process requests such as ordering replacement or new cards, transferring or depositing funds, and requesting account statements.
- Support customers with opening and closing accounts and provide guidance on available banking services.
- Handle customer disputes and concerns by gathering information, documenting details, and providing appropriate assistance.
- Provide technical support for online banking, helping customers troubleshoot access and account-related issues.

PROJECT 01

Customer Support Workflow

Automotive Service & Recall Case

Scenario:
A customer contacts customer support after receiving a vehicle recall notice. The customer is concerned because they have not yet been able to schedule the required repair and wants assistance getting the issue addressed.

Customer Inquiry

> **Customer:** “I received a recall notice for my vehicle, but I haven't been able to get the repair scheduled. I want to know what I need to do and whether someone can help me get this resolved.”

Inquiry → Research → Response → Documentation → Follow-up → Resolution

01 — Inquiry
Listen to the customer's concern, verify the necessary vehicle and customer information, and identify exactly what assistance the customer is requesting.

02 — Research
Review the available case and recall information, check the details of the concern, and determine what action or assistance may be required.

03 — Response
Explain the available next steps to the customer clearly and professionally, while setting appropriate expectations regarding the case.

04 — Documentation
Document the customer's concern, relevant vehicle information, actions taken, and requested resolution in the case management system.

05 — Follow-up
Relay the case to the appropriate department for further review or action and monitor the case for updates when applicable.

06 — Resolution
Once the appropriate team has taken action, provide the customer with the available update or next steps and ensure the case documentation accurately reflects the outcome.

Mock Customer-Service Ticket

CASE ID: AUTO-2026-0148
CATEGORY: Vehicle Recall
PRIORITY: Standard
STATUS: Escalated for Review

Customer Concern:
Customer received a recall notice and is requesting assistance because they have been unable

to arrange the required repair. Customer would like to know what options are available and wants the matter addressed.

Information Collected:

- Customer verification completed
- Vehicle information verified
- Recall concern identified
- Customer's requested assistance documented

Action Taken:
Reviewed the customer's concern and documented the relevant case information. The case was relayed to the appropriate department for further review and assistance.

Next Step:
Await department review and provide the customer with an update or additional instructions once information becomes available.

Case Resolution:
Pending department action.

Skills Demonstrated

Customer Support
Handling customer concerns professionally and identifying the appropriate course of action.

Communication
Clearly explaining information, next steps, and expectations to the customer.

Documentation
Accurately recording customer concerns, case details, actions, and updates.

Problem Solving
Understanding the issue, researching available information, and coordinating with the appropriate department.

Case Management
Managing a customer concern from initial inquiry through escalation, follow-up, and resolution.

PROJECT 02

CRM & Data Organization

Customer Case Tracking Dashboard

Scenario:
A small service-based business needs a simple way to keep track of customer inquiries, requests, follow-ups, and completed cases. The goal is to keep customer information organized and make sure no request is overlooked.

Sample Dashboard

CUSTOMER RECORDS	STATUS
12	Total Customer Records
4	Pending
5	Completed
3	Follow-Ups

Customer	Request Type	Date Received	Status	Next Action
Maria Santos	Service Inquiry	Oct. 5, 2026	Pending	Awaiting department response
James Miller	Account Request	Oct. 5, 2026	Follow-Up	Contact customer with update
Anna Cruz	General Inquiry	Oct. 6, 2026	Completed	No further action
Daniel Reed	Complaint	Oct. 6, 2026	Pending	Review and escalate
Sofia Garcia	Information Request	Oct. 7, 2026	Follow-Up	Send requested information
Michael Lee	Service Request	Oct. 7, 2026	Completed	Case closed

Sample CRM Records

Sample data for demonstration purposes only.

How I Keep Records Organized

01 — Record
Enter customer information and the reason for the inquiry accurately.

02 — Categorize
Assign the appropriate request type and case status.

03 — Document
Record important details, actions taken, and relevant updates.

04 — Track
Monitor pending cases and identify items requiring follow-up.

05 — Update
Keep customer records current as the case progresses toward completion.

Skills Demonstrated

CRM & Data Entry
Accurate entry and organization of customer information.

Documentation
Recording customer concerns, actions, and case updates clearly.

Data Organization
Structuring information so records are easy to review and manage.

Attention to Detail
Maintaining accurate and up-to-date customer records.

Follow-Up Management
Tracking pending requests and ensuring required actions are not overlooked.

PROJECT 03

Email Management

Inbox Organization & Prioritization

Scenario:
A business owner receives a large number of customer and business emails throughout the day. Without an organized inbox, important requests can easily be missed. My role is to categorize incoming messages, identify priorities, and organize emails based on the action required.

Mock Inbox

Sample emails for demonstration purposes only.

Category	Example Email	Priority	Action
🔴 **URGENT**	“Service issue requires immediate assistance”	High	Review and respond immediately
🟠 **FOLLOW-UP**	“Following up on my previous request”	Medium	Review previous conversation and respond
🔵 **GENERAL**	“Question about your services”	Normal	Respond during regular inbox processing
🟢 **COMPLETED**	“Thank you for resolving my concern”	Completed	Archive or file

Inbox Workflow

01 — Review
Scan incoming emails and identify the sender, subject, request, and urgency.

02 — Prioritize
Determine which messages require immediate attention and which can be handled later.

03 — Categorize
Organize emails into **URGENT, FOLLOW-UP, GENERAL,** or **COMPLETED**.

04 — Respond
Handle routine inquiries professionally and provide clear, relevant information.

05 — Follow Up
Track messages that require additional information, internal coordination, or a later response.

06 — Organize
Move completed conversations into the appropriate folder or archive to keep the inbox manageable.

Example Priority System

URGENT
Customer complaints, time-sensitive requests, service issues, or matters requiring immediate action.

FOLLOW-UP
Existing conversations where the customer is waiting for an update or additional action.

GENERAL
Routine questions, information requests, and non-urgent inquiries.

COMPLETED
Requests that have been resolved and require no further action.

Skills Demonstrated

Email Management
Organizing and maintaining a structured inbox.

Prioritization
Identifying urgent and time-sensitive messages.

Written Communication
Providing clear, professional, and customer-focused responses.

Organization
Keeping conversations properly categorized and easy to retrieve.

Follow-Up Management
Tracking outstanding requests and ensuring messages do not get overlooked.

PROJECT 04

Social Media & Canva

Social Media Content & Promotional Design

Fictional Brand: The Daily Table Café
Industry: Café, Coffee & Comfort Food
Project Type: Personal Demonstration Project

Project Overview

This project showcases my ability to create promotional graphics, design social media content, and organize content ideas for a fictional food and beverage business. Using Canva, I develop visually engaging designs that highlight products, promote special offers, and help businesses maintain a consistent online presence.

The goal is to combine attractive visuals with clear messaging to capture attention, communicate promotions, and encourage customer engagement.

Selected Promotional Graphic Designs

Four promotional designs created for portfolio demonstration.

This section will feature four of my sample promotional graphic designs. Each design demonstrates my ability to use visual hierarchy, typography, product imagery, and promotional messaging to create attention-grabbing marketing materials.

Design 01 — Coffee & Matcha Promotion

Concept: Fresh Morning — Now Serving

Insert Sample Promotional Graphic 01 here.

A café promotional poster featuring iced coffee, matcha, and a croissant combo. The design highlights a special offer while presenting the products in an appealing, visually engaging layout.

Design 02 — Pasta Promotional Poster

Concept: Pasta Day — Special Offer

Insert Sample Promotional Graphic 02 here.

A food promotional graphic highlighting a pasta dish and a limited-time discount. The design uses bold typography, warm colors, and product photography to draw attention to the offer.

Design 03 — Promotional Graphic

Sample Weekly Content Calendar

Day	Content Type	Topic	Goal
Monday	Promotional Post	Coffee & Matcha Combo	Promote featured products
Tuesday	Educational Carousel	Coffee Tips	Provide useful information
Wednesday	Instagram Story	Today's Special	Encourage engagement
Thursday	Product Feature	Pasta Favorite	Highlight a menu item
Friday	Promotional Graphic	Weekend Food Offer	Promote a special offer

This is a sample content plan for a fictional brand, not a record of a live business campaign.

My Content Creation Workflow

01 — Plan: Identify the content topic, audience, and purpose.

02 — Design: Create graphics in Canva using suitable typography, imagery, and colors.

03 — Review: Check spelling, layout, readability, and promotional details.

04 — Organize: Arrange designs and captions according to the content calendar.

05 — Prepare: Keep content organized and ready for the business owner to review or publish.

Skills Demonstrated

- Canva Graphic Design
- Social Media Content Creation
- Promotional Marketing Materials
- Content Planning and Organization
- Visual Communication
- Attention to Detail
- Creative Problem Solving

Tools: Canva

Project Note: Personal Demonstration Project. The brand, promotions, captions, and content calendar are fictional examples created to demonstrate my design and content organization skills.
